

ADVANCED

Powerful Point of Sale Software for Prospering Businesses

Keystroke Advanced is the ultimate point of sale system for serious retailers and businesses with specialized automation needs. Whether you operate a small startup retail store, a multi-location chain, or a well established distribution business with retail and wholesale customers – make Keystroke Advanced the cornerstone of your business automation solution.

Ease of training, streamlined functionality and a robust feature-set make Keystroke Advanced hands-down the best value retail system available anywhere. The versatility of Keystroke Advanced runs circles around other POS software packages – including market-specific custom solutions costing thousands of dollars more.

The flexible design of Keystroke software is time-tested over 35 years and proven reliable for thousands of successful businesses. With Keystroke software your business and staff can depend on the experience and expertise of a local Authorized Keystroke Dealer – backed by the award winning technical support services of Specialized Business Solutions.

Fast & simple transaction entry – Extensively configurable to maximize efficiency in high volume stores and sustain proper record keeping in more complex sales operations such as wholesale ordering and specialty services.

Robust databases & reporting – *Fast* – *reliable* – real-time *integratable*. Virtually unlimited database capacity, extensive data fields, powerful lookup features, and editable report formats.

Secure credit/gift card processing – Exceeds PCI Secure Payment Standard guidelines. Includes P2PE tokenization encryption and EMV for fraud protection. Supports NFC for Smartphone eWallets.

Open hardware support – Operates in Windows® 10 & 11, Remote Desktop Services, and 64-bit Windows® environments. Supports most printers and peripherals including barcode scanners & printers, electronic scales, change dispensers, biometric readers, security recording systems (DVR), and state-of-the-art all-in-one workstations.

Easy to learn and use – *Intuitive* – *Flexible* – *Touch-Friendly*. Traditional pull-down menus, browser-style Navigation Menus, and customizable Toolbars for frequent tasks. Built-in TouchScreen Editor and powerful Macro support.
